

SMT-W5100

SMT-W5100

Samsung WLAN Solution will liberate you from the confines of your office. It will also provide you with significant cost efficiency with its ability to remove unnecessary cabling and maintenance through the qualified voice data service of IP & WLAN. With its support for the SMT-W5100 WLAN phone and SMT-R2000 Dualband WLAN AP, OfficeServ systems provide full voice-data convergence not only for fixed network connections but also on Corporate WLAN.
